# ENERGETIX “Catalogue Launch” competition 2015

Competition period: 1 May to 31 July 2015

## **This is how it works:**

For each new business partner that you register during the competition period (1 May to 31 July 2015) and who is able to qualify at 40% by 1 August 2015 at the latest, you and the newly registered business partners will be awarded a ticket for the day event and a ticket for the gala evening.

Both you and the new business partners will also each be sent a set of 80 catalogues.

**It will not be possible to transfer awarded tickets to other business partner IDs**, i.e. both you and the newly registered business partners must order your tickets for the day event and the gala evening yourself through your own management system.

Tickets must be pre-ordered on-line as usual through the fast order section in the “Events / Training” category.

**Ordered tickets will only be billed in the first week of August and charged to your account or credit card. Tickets won within the framework of this competition will then be credited automatically.**

- If you have selected direct debit as your method of payment, your account will be debited by the invoice amount. The payment for the awarded tickets will be credited to you by the next working day at the latest.
- If you have selected a credit card as your method of payment, the invoiced amount and the credited amount will be immediately set off against each other.

**You won't have to do anything and may already place an early order for your tickets as the tickets you win will be set off against ticket orders you've already placed.**

You and your newly registered partners will be informed by email about the tickets you have won at the beginning of the months of June, July and August. You will – when you have won at least one ticket – also be informed about the current status of the tickets you have won and ordered in the cockpit of your management system.

Your qualification will only be valid at the conditions and data stated in these terms, i.e. the ticket prize is only for tickets to the 2015 Catalogue Launch.

It will not be possible to make any payments or provide other credits in place of the tickets.

Orders that have contributed to the qualification may not be cancelled or sent back in return for credit notes.

## **Condition for being sent 80 catalogues:**

You and the newly registered business partners will receive the 80 catalogues by post after the Catalogue Launch irrespective of whether you attended the Catalogue Launch or not.
